

Wood Text Part 1

1. Open Photoshop. Type the text.

The image shows the letters 'IG' in a bold, sans-serif font. The letters are a solid, deep red color and are set against a plain white background.

2. Layer > Layer Style > Bevel and Emboss
3. Depth 400
4. Select Drop Shadow
5. Select Pattern Overlay. From the pattern, select Wood Texture (forth in the first row)

The image shows the letters 'IG' with a 3D bevel and emboss effect. The letters are a light tan color with a wood grain texture. They have a dark brown drop shadow and a lighter tan bevel, giving them a three-dimensional appearance.

6. Add background color to decorate the text.
